

March 17,

Hello,

I'm still in Denver training extremely hard with Frank Shorter and a few other guys I've met around here. I'm running almost twenty miles daily at altitude and I can feel myself getting stronger by the day. My altitude is the best it's been in years and I think I'm beginning to get my old killer instinct back.

Now for the information you need to know. It should be any day now

that the AAll comes through with those permits. I've got the Oregon AAll on my side now and Hal Keller is working with me. The press info should also be here soon and I'll call you as soon as it arrives.

If you want a story for the papers here then call me at 303 - [REDACTED] - [REDACTED] in the early mornings or around five in the afternoons. I think a good story about my serious training and getting ready for the film would be good. I've decided to train

for 76 and you're one of
the first to know.
Please don't let it
get around yet since
I'm not ready for the
pressure. This should
be a great year for me
since I want to destroy
my competition.

I'll close for this
moment.

Sincerely,

Steve
